Straight From the Heart

Greetings to all our well-wishers in the matchless name of Jesus Christ. Another year has flown by making me think that Time and Tide never waits for any body and reflecting back we have a nagging feeling that we could have achieved much more than what we have achieved.

The Lord God's abundant grace was with us all through the year as it had been all through. I prayerfully hope a brief account of our work in Peace Trust, which is reflected in this Annual Report will help you to get a glimpse of our activities & programmes.

Responding to the various emerging and varied needs of the society also calls for Innovation, change, involvement, dedication and willingness. For Peace Trust, the year under review is yet another mile stone year of dedicated and innovative service to the underprivileged and marginalized rural poor especially persons with stigmatized and life style related diseases, women and children.

We owe our success to your friendship and Co-operation. As we evaluate our 12th year of service with more vigor enthusiasm and commitment.

- ★ The Clinton Foundation - Catholic Relief Services sponsored Pediatric ART Initiative for Children Infected with HIV/AIDS phased out in December 2007.
- ★ The Breast Cancer Eradication programme sponsored by the Susan G. Komen for the Cure has phased out from January 2008.
- ★ The HIV/AIDS Prevention Care and Support programme was revived through the Malteser International - Pro-Vision combine

after the programme was phased out from the funding of the APAC-VHS-USAID.

- ★ Women's Development was given a shot in the arm by the formation Self Help Groups.
- ★ A Micro Enterprise Development programme with support of Links International, UK commenced from March 2008 to help the needed Church and Community members

A few proposals sent to the various funding agencies is being eagerly awaited

The programmes carried out, lessons learnt, experience gained, best practices adopted and the impact generated in the field during the past year are shared with all our well wishers, donors, friends and staff through this Annual Report.

While this annual report gives an opportunity to understand the activities of PEACE TRUST in detail, we are sure your involvement in the initiatives of PEACE TRUST will increase manifold in the coming years.

The ultimate credit goes to the hard work rendered by our staff, the support and motivation we received from all our donors, well wishers and the cooperation we received from the beneficiaries was another stepping stone to keep us moving. At this time of remembrance, we gratefully recall them all and submit this Annual Report with a firm assurance that we will do more in the coming years.

It has been a joy to work in partnership with you when we see the fulfillment of God's purpose in the lives of these beneficiaries.

As we read in III John 2" Beloved I pray that you many prosper in all things and be in health just as you should prosper. I, as the Director of PEACE TRUST look forward for your continued support and involvement in the activities of PEACE TRUST in the years to come and submit this Annual Report for your kind perusal.

Dr. R. Anburajan
